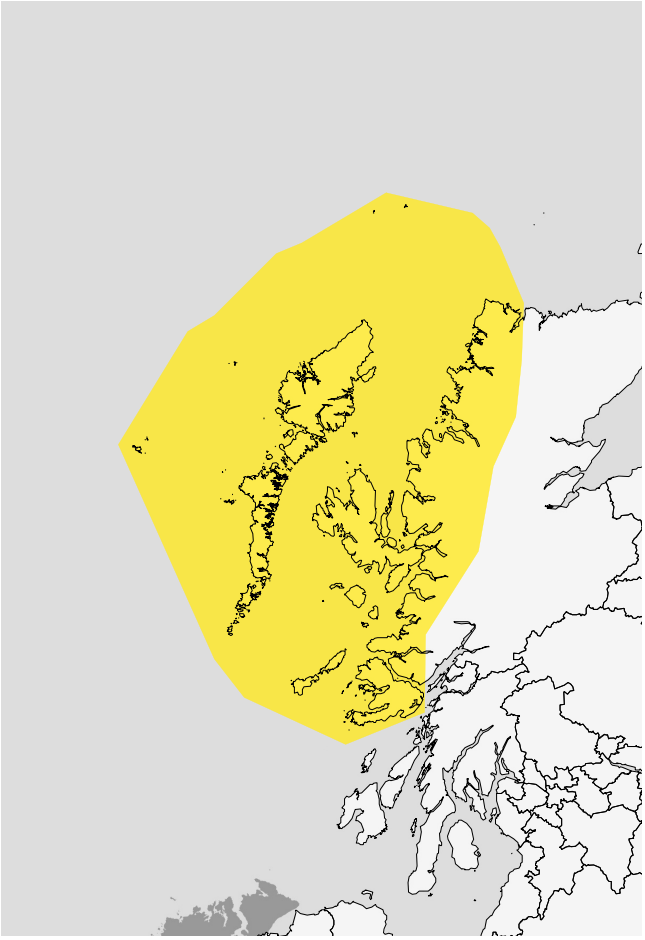
Yellow warning
**Wind**

Between
**00:00 Tue 14 Jan 2020** and
**23:59 Tue 14 Jan 2020**



## Very strong southwesterly winds will continue through Tuesday and may cause further disruption.

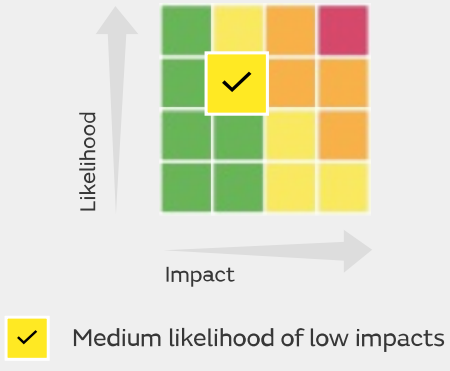
### What to expect

- Some delays to road, rail, air and ferry transport are likely with some journeys taking longer
- Some short term loss of power and other services is possible
- It's likely that some coastal routes, sea fronts and coastal communities will be affected by spray, large waves and flooding
- Delays for high-sided vehicles on exposed routes and bridges likely

### Further details

The very strong southwesterly winds will continue at times through Tuesday with gusts of 60-70 mph. Although winds are generally less strong than during Monday, some further disruption is likely - especially around coasts.

Although the frequency and strength of gusts will probably diminish through Tuesday afternoon and evening, some further strengthening is possible again later.



Medium likelihood of low impacts
